Samsung Mobile Print App

Download the power to print, scan and fax.

The smartphone makes businesses more productive than ever. People are reachable no matter where they are. Critical questions can be answered immediately. Emails no longer pile up. About the only thing that could increase the smartphone's productivity is the ability to securely print important emails, PDFs and Microsoft® Office documents, or being able to scan and even fax directly from your smartphone.

That's exactly what the Samsung Mobile Print App does (BLI-Summer 2012 Pick). Now with an enhanced UI, this free download gives businesses the power to print, scan and fax directly to and from any Samsung printer or MFP on a wireless local-area network with a secure Wi-Fi access point. All without the need for an external server or PC. Time-sensitive documents can be printed, signed, scanned and emailed back. The potential for productivity is vastly increased.

The Samsung Mobile Print App. It's what business has been missing. It will usher in a new era of productivity. And it's the latest innovation from Samsung.
Business. Innovated.

BLI BUYERS LAB 2012 PICK
